Caution: Before using your phone, please read the safety, regulatory and legal information provided with your product.

motorola.com

This product meets the applicable national or international RF exposure guidance (SAR guideline) when used normally against your head or, when worn or carried, at a distance of at least 0.39 inches (1 cm) from the body. This distance can be achieved when using a case and belt clip that contain no metallic components. For body-worn operation, the device should be positioned for separation of at least 0.39 inches (1 cm) between the device and the user’s body to ensure compliance with RF exposure guidelines. The device includes a considerable safety margin designed to assure the safety of all persons, regardless of age and health.

Protect your phone with Moto Care Accident Protection. Visit motorola.com/protectmydevice for more information. (U.S. only)

At a glance
Let's get started! We'll guide you through startup and tell you a bit about your phone's features. And when you're ready, customize your phone to match your style with Motorola Shells (sold separately and not available in all countries).

Note: Software updates happen frequently, so your phone may look a little different.

Remove the back cover
Your phone is water resistant,* but it depends on you putting the cover on properly. If you remove the cover to insert cards, be sure to replace it properly to ensure water resistance.

Caution: Don't use tools to remove the cover—doing so may damage your phone.

Put your finger in the bottom corner hole in the cover and pry it off. Don't be afraid to use a little muscle.

Take off the back cover.

Put on the back cover.
Press all the way around the camera area and the cover's edges for a water-resistant seal.

Take off the back cover.

Put in the cards & power on
Caution: Make sure you use the correct size SIM card, don't cut the SIM card, and don't use an adapter with your SIM card.

Power on.
Press and hold Power until the screen lights up.

Put in the SIM and memory cards.
With the gold contacts facing down, push in a card.

Motorola Migrate
Copying your personal stuff from your old Bluetooth-enabled phone to your new phone is easy.

Note: If your old phone is an Android™ phone, download the Motorola Migrate app on Google Play™ on your old phone before you get started.

Find it:
On your new phone, touch Apps > Migrate

Migrate your stuff
Copy stuff from your old phone to this one in just a few minutes.

You may be able to transfer photos, videos, music, call history, messages, contacts and more.
